About Metharath University

Introduction:

Metharath University (MRU) was formerly known as Shinawatra University (SIU), established in 1999 in Pathum Thani, Thailand.

MRU was established in response to the need to educate young people to keep pace with global trends and rapid changes in work culture, thinking, and ways of doing things. The university has paid great attention and efforts to foster innovations. Echoing Thailand's newest national strategy to create a value-based economy driven by innovation, technology, and creativity, a new mission and vision have already been launched upon the university.

MRU is one of the best private universities which can provide innovative international education in Thailand. There are 17 programs in 3 schools, covering Bachelor's, Master's, and Ph.D. levels. 90% of the international program lecturers hold Ph.D. degrees, and 40% hold academic ranks like an assistant professor and above. The average publication for the lecturers is 2.4 per year, and we build various research funds of more than 40 million baht a year.

Thousands of students from various countries learn in our 300-rai picturesque scenery campus. MRU also builds a range of cooperation with multiple global universities and enterprises. So far, MRU has cohesive academic collaborations with more than 150 universities in China, Europe, and America.

After 23 years of dedication and contributions to the society of Thailand and the international community, more than 2,000 graduates at Bachelor's, Master's, and Ph.D. levels from 24 countries grew from here and brought various innovations to the world. 75% were employed six months after graduation, and 98% could find a job within the first year after graduation.

◆ Bachelor of Business Administration (Logistics and Supply Chain Management)

Introduction:

There is a growing demand for goods and services in the modern day. Therefore, it is essential to effectively and efficiently manage logistics and supply chains to meet consumer demand and service objectives, which is crucial to the competitive business plan of an organization. The program is created so that logistics and supply chains contribute to worldwide economic and social growth. This program offers a well-rounded education in business and the chance to specialize in logistics and supply chain management. It enables students to develop a thorough understanding of logistics and supply chains in the context of a broader, global view of trade.

Program Aims:

- To cultivate and produce quality graduates to fulfill the professional workforce in logistics and supply chain-related industries.
- To expose various theoretical concepts in management, marketing, law, accounting, economics, and related fields to potential students. These theoretical concepts are blended into logistics and supply chain aspects.
- To analyze issues and problems in logistics industries at macro and micro levels and the adoption of professional thoughts to the related industries.
- To produce and equip intellectual, skillful, competent, and highly moral graduates.
- To develop and enhance community understanding through logistics and supply chain research, consultancy, and related fields.

Career Opportunities:

This course is designed for students who wish to develop specialist skills in logistics, supply chain management, and transport planning and management. Logistics and supply chain management graduates are in high demand around the world.

Rewarding career opportunities available within this diverse field include:

- Logistics Officer
- Supply Officer
- Supply Chain Director/Manager
- Export Manager
- Operations Manager
- Procurement Manager
- Shipping Coordinator
- Freight Manager

◆ Bachelor of Business Administration (Marketing)

Introduction:

The Bachelor of Business Administration in Marketing is a well-regarded degree that offers students a comprehensive education in marketing. The program is designed to provide students with the information and abilities required to excel in numerous professions in the marketing business, as well as the knowledge and skills needed to succeed in the dynamic and fast-paced world of marketing.

Program Aims:

- To equip students with a succinct understanding of marketing principles and conduct market research to analyze market trends and identify potential opportunities and obstacles
- To increase students' knowledge and abilities in advertising, branding, sales, and other marketing methods, as well as consumer behavior and the different aspects that influence consumer decision-making
- To teach students how to create and conduct effective marketing campaigns through traditional and digital platforms
- To prepare students for professions in marketing and allied disciplines, as well as for future marketing education

Career Opportunities:

The program is relevant to the business world, provides a wide range of professional opportunities, and provides students with several benefits, such as diverse skills, a competitive advantage, networking opportunities, and career advancement. Graduates of this program can work in the following fields:

- Marketing Manager
- Advertising Executives
- Market Research Analyst
- Sales Manager

กิจกรรมนักศึกษาและองค์กร

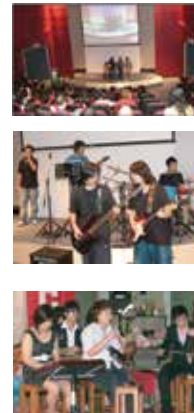

มหาวิทยาลัยมุ่งพัฒนาทักษะความคิดสร้างสรรค์และการทำงานเป็นทีมของนักศึกษา และเพื่อให้นักศึกษามีร่างกาย อารมณ์ สังคม และสติปัญญาที่สมบูรณ์ ดังนั้นนักเรียนจึงควรจัดตั้งสภานักศึกษาและสโมสรนักศึกษาต่างๆ เพื่อเพิ่มเวลาว่างให้มากขึ้น นักเรียนได้มีส่วนร่วมในกิจกรรมที่ส่งเสริมพัฒนาการทั้งภายในและภายนอก อารมณ์ สังคม และสติปัญญา

MRU aims to develop students' creative and teamwork skills and to make them physically, emotionally, socially and intellectually perfect. Therefore, students are encouraged to form various student councils and student clubs to enrich their leisure time. Students are involved in activities that promote their internal and external physical, emotional, social, and intellectual development.
